

Greater Baton Rouge Pipeline Work

In 2020, we will begin replacing and installing new pipeline segments in Baton Rouge and the surrounding parishes. These investments reinforce and enhance the safety and reliability of our pipeline operations.

Pipeline Work Highlights

ExxonMobil Pipeline Company is focusing on maintenance and replacement work along approximately 120 miles of pipelines in four parishes.

These pipelines service ExxonMobil's Baton Rouge facilities and other operators in the region.

These projects represent more than \$500 million in capital investment in Ascension, East Baton Rouge, Iberville and West Baton Rouge Parishes.

Work will begin in October 2020 and will continue into 2022 in certain locations.

Economic Benefits for Louisiana¹

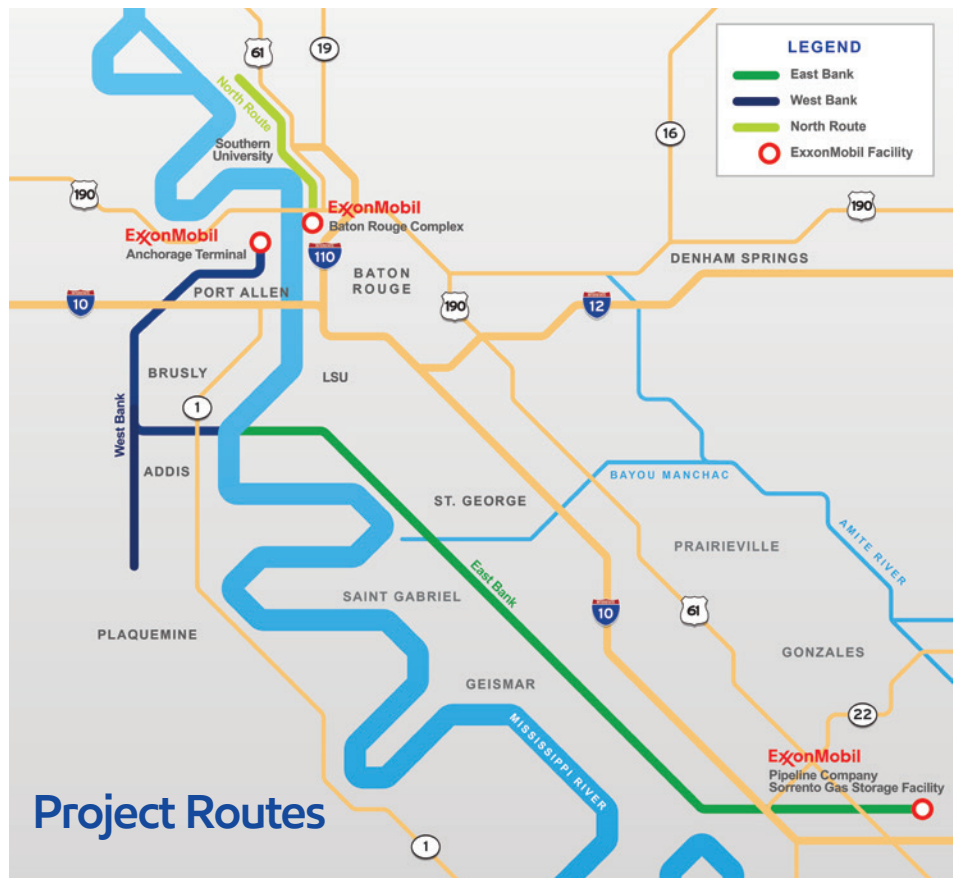

Hundreds of construction jobs and more than \$400 million in labor income for workers supporting these projects.

\$730 million in total economic output.

\$21.1 million in state and local tax revenue.

1. Economic impact data has been developed by the LSU Center for Energy Studies.

Project Routes

Safety Is Our Top Priority

Safety is a core value at ExxonMobil Pipeline Company. We strive for flawless performance concerning the safety of our operations, employees, contractors, neighbors and the environment. Our safety, health and environmental performance goal is simply stated: "Nobody Gets Hurt. Not a Drop is Spilled."

X ray examination of all pipeline welds during construction to verify integrity prior to placing the line into service

Installation at greater depths than required in many places to reduce the risk of third party damage

Internal and external integrity assessments prior to and after placing the pipeline into service

A 24/7/365 monitoring and control system that uses computers, alarms and other technologies designed to remotely activate protective measures

A cathodic protection system designed to guard against corrosion and help ensure ongoing integrity

Aerial and ground based inspectors regularly monitor the pipeline route for potential integrity issues

Louisiana Communities Support Energy Infrastructure

A survey of 100 residents living along or near local pipeline routes was conducted in February 2020. Based on survey results, surrounding communities support Louisiana's pipeline industry and agree that its continued growth is good for the state.

2 out of 3 Louisianans hold a favorable view of the pipeline industry

7 out of 10 agree that "the growth of the pipeline industry is good for Louisiana"

Committed to Our Community

60,000 gallons

of gasoline donated to area first responders during recent Coronavirus pandemic.

160,000 gallons

of locally-produced ExxonMobil hand sanitizer distributed throughout the greater Baton Rouge community for use by governments, hospitals and frontline workers.

Good Neighbor Grants

Through our Good Neighbor Grant program, we're providing financial support to local schools, first responders, and non profit and community groups.
